

LUGGAGEMATE™

TRAVEL SMART

The LuggageMate

We have designed a range of high quality safety luggage straps with built-in digital luggage scales and approved (TSA) combination locks.

The LuggageMate is user friendly, saves you costly overweight charges and keeps you belongings safe.

Simply strap, lock and weigh.

Models SMLB-3102 and SMLB-3101 come with a weight unit, travel unit and small chain. While travelling, remove your weight unit and replace it with your travel unit. Additionally you can hook the chain to your weight unit and weigh your carry-on.

The Eco-Line

Consumers all over the world now want eco-friendly products. Our company is aware of the growing trend of new and innovative products that meet both low-impact criteria and long-term sustainability.

For this reason our LuggageMate can be produced with a strap made out of RPET material.

Our straps are made out of 12 pieces 330ml recycled plastic bottles.

What is RPET you might ask... RPET is recycled polyethylene terephthalate. This is a material that can be gathered from used plastic bottles – whether fizzy drink, juice or bottled water – that have been put aside for the purpose of recycling. When collected as recycling, the plastic bottles are sorted and cleaned, crushed into small flakes, then heated to melting point in a factory. The hot material is then extracted to create yarn.

HOW TO USE MODEL 3101 & 3102 STEP BY STEP

Industrial property are protected primarily to stimulate innovation, design and the creation of technology. In this category fall inventions (protected by patents), industrial designs and trade secrets.

The social purpose is to provide protection for the results of investment in the development of new technology, thus giving the incentive and means to finance research and development activities.

A functioning intellectual property regime should also facilitate the transfer of technology in the form of foreign direct investment, joint ventures and licensing.

The protection is usually given for a finite term (typically 20 years in the case of patents).

All visual and textual content in this catalogue (including all brands, names, images, trademarks and logos) are protected by trademark rights, copyrights and other rights owned by LuggageMate or by third parties.
